

Protecting *your health* starts with your smile.

Think straighter teeth are just for looks?
Think again.

Example
of “crowding”,
a common type
of malocclusion

75%

Around 75% of Americans have a misaligned bite². We call that a malocclusion.

Besides impacting how your smile looks, malocclusions can also increase your risk for **tooth damage, cavities, and even whole-body health conditions³.**

CandidPro can *fix malocclusion*

With CandidPro clear aligners, you can achieve a straighter smile while protecting your teeth for life. It all starts with a brief consultation.

Just ask your doctor if you're a candidate.

Protect your results with PermaForm™ retainers

After your clear aligner journey, ask your doctor for PermaForm clear retainers. These advanced retainers are designed to comfortably hold your smile in place.

CandidPro

Straighten your smile on *your schedule*

CandidPro clear aligners help you achieve the smile of your dreams with treatment technology that fits your lifestyle.

A connected treatment experience

CandidPro conveniently connects you to your doctor with our top-rated ProMonitoring™ app.

Eliminate the need for unnecessary in-office check-ins by sharing regular progress photos with your doctor from wherever life takes you.

**Up to 89% fewer
office visits¹**

Uncompromising quality

CandidPro clear aligners are manufactured to exacting standards using a leading medical-grade polymer to gently move your teeth over your prescribed wear schedule.

1. Compared to conventional orthodontic treatment

Treatment overview

How to start your journey to a straighter, healthier smile.

CONSULTATION

Your doctor will take all the records necessary for evaluation and determine if you're a candidate.

TREATMENT PLAN

Your doctor will develop a treatment plan for you with support from US-licensed orthodontists.

ALIGNER KIT

CandidPro will manufacture and ship your custom aligners to you or your doctor.

WEARING ALIGNERS

You'll wear your aligner steps sequentially for 22 hours every day.

PROMONITORING™ APP

You'll use your smartphone to submit progress scans to your doctor.

RETAINERS

Once treatment has ended, your doctor will prescribe a retainer to maintain your new smile.

How do I *pay* for clear aligners?

Financing

Your doctor may offer financing opportunities to help you distribute the cost of your treatment over time.

Orthodontic insurance

Your orthodontic insurance may cover CandidPro clear aligners. Ask your doctor to see if your plan qualifies.

HSA and FSA

If you pay into an HSA or FSA, those funds can be used for orthodontic treatment, including aligners.
